Mr. Federico Bowen  
President  
Bowen Engineering Corporation  
1528 Vassar Street  
Orlando, FL 32804

Dear Federico,

Thank you so much for your commitment to Give Kids The World and the World of Wonders-**WOW** Project.

We appreciate the time that David Horne, staff engineer, at your company spent preparing the design calculations for the light gage metal framing of our Gate House. This new structure is the first impression all of our guests have of the Village as they enter this unique facility and we appreciate that you were willing to assist us with this project.

It takes the caring commitment of many companies and individuals to make dreams come true for special children and their families. We thank you, David and Bowen Engineering Corporation for helping us with our very important mission.

Whenever you are in the Kissimmee area please stop by so I can share the excitement of this project with you. I can be contacted at; 407-396-1114 x295 or on my mobile number which is; 1-407-288-6538.

Sincerely,

Frank Eller  
Project Manager
